# MINING, BUSINESS AND STOCKS.

## BUSINESS ON THE EXCHANGE.

No Very Important Changes Re- Three Thousand Pounds Sampled corded in Prices of Stocks.

PETRO GROWING STRONGER.

May Day and Mammoth Firmer-Yankee Con, Suffers a Decline-Grand Central Active Today.

announce of the second

TODAY'S METALS:

SILVER 60%

LEAD, \$4.00 CASTING COPPER 15%

Business was a little quieter than usual on the exchange during the past week. Prices do not show much change, however, May Day shows a shrinking when Monday's prices are compared with today's. Early in the week it was traded in at 69½, but it weakened to 59½ from which figure it advanced to 63

and is now quite firm at 62.

Petro also shows some changes, due to encouraging reports from the mine. Af-ter hanging around 20 for some time past the stock moved up to 22% in the bidding today.

Yankee Con. showed sharp declines. It was held at 7½ with 6½ bid on Monday, but today 1,000 shares were released on

Grand Central is not much changed, A small lot was handed out today at \$5.75, while Lower Mammoth, which has hung around 50 for some time past let go 600 today at 49%.

Mammoth continues firm at \$2.14\% as does Sacramento at 28. Bullion-Beck, although inactive, continues stationary on news of regular shipments from the mine, Tesora shows more strength as the re-

sult of recent strikes. Closing quotations were	nosto	t as fol

## BIG RECEIPTS OF CYANIDE DUST.

CON THE THEORY OF THE THE THEORY OF THE THE THE THEORY OF THE THEORY OF THE THEORY OF THE THEORY OF THE THE THE THEORY OF THE THEORY OF THE THE THE THE THE THE THE THE TH

Since Last Monday.

SHIPMENT FROM DEXTER.

Mammoth Bullion Shipped - At the Mercur Con-Items from Bingham and Tintic-Notes.

The present week has been full of business for the employes of the gold sampling rooms of the American Smelting company. About 3,000 pounds of cyanide product has been sampled and tested for values since last Monday. Over 2,300 pounds of this amount came from the Sacramento, Geyser Marion, Chloride Point and Mercur in this State. Idaho was represented by 150 pounds from the Lucky Boy. Montana sent 60 pounds, and properties in Nevada forwarded about 210 pounds. The value of the week's product will doubtless run close to \$30,000.

DEXTER SHIPMENT. Bullion Cyanides Amount to About

\$14,000. The Dexter Mining company, whose properties are in Tuscarora, Nevada, reproperties are in Tuscarora, Nevada, received a shipment of bullion and cyandes from the mine foday. The bullion is valued at a little less than \$10,000 and the cyanides will amount, it is thought, to a little more than \$4,000, thus making the total value of the shipment foot up somewhere about \$14,000. With regard to the recently reported strike in the mine Mr. J. S. Laken said today he had not heard of any recent strike. The management is crosscutting to the vein from the 300 level and it is thought that the vein will be reached about the end of the month. For the pasi three months the vein will be reached about the end of the month. For the past three months the mine is said to have more than paid its way. It is anticipated that the water supply for motive power is shrinking, though nothing is stated positively on the matter. This may account for the production running a little behind last month's output. month's output.

#### THE CON MERCUR CO.

Preparations to Increase Output -Electric Motor for Ore Hauling. Treasurer George H. Dern of the Con. Treasurer George H. Dern of the Con. Mercur Company reached town last evening from the mine and reports Supt. Edwards putting through nearly 200 tons of ore daily. The Mercur is being drawn upon for about 400 tons of ore per day, which is about equally divided between oxidized and base. The values in the base ore are said to be very satisfactory. The ore from the Wery satisfactory. The ore from the Mercur is being taken out through the mill tunnel. It will be about a month before proper connection is made with the Resolute tunnel so as to enable the management to greatly increase the

The ore is being hauled to the Golden Gate mill by horses, but it is the inten-tion to use an electric motor in the

near future. Questioned regarding the power plant Mr. Dern said that one of the 500 horse power generators is on the ground and the other one is expected shortly. Soon after its arrival the Con. Mercur company will be using power generated on its own ground.

## MAMMOTH BULLION.

Output for the First Ten Days of August Valued at More Than \$10,000.

The Mammoth mill at Tintle sent out its second lot of bullion today for the present month. The first lot was valued at \$2,750, which, with the shipment of \$7,500 worth today, makes the total for the first ten days of the month amount to over \$10,000. It is said that the grade of the ore treated is a little wer at present, and a slight decrease in the mill earnings is expected during the balance of the month. A car of ore was sold yesterday afternoon by leasers, which showed 25 per cent in copper. It was taken from the upper levels. Five cars of concentrates were shipped from the mill yesterday.

## ITEMS FROM BINGHAM.

Strike in Silver Hill-The Mountain Chief-West Mountain Placer. In its review of the week the Bingham Bulietin says; Increased activity in Bingham mines since August 1st is

puité noticeable. High grade ore is accumulating in the bins of the Fortune. Mill is turn-ing out a fine quality of concentrates. Petro began hauling to depot yester-day and will send out several carloads of lead ore responding to the late ad-

vance to \$4. A pan of gravel taken from one of the drifts of West Mountain Placer one day last week contained 40 grains of

The ore body recently encountered in the St. Joe group is being explored by an upraise and is reported making a properties lie near Frisco. Bayer company whose

fine showing.

The new compressor for Bingham C. G, mines was landed at mouth of working (north) tunnel by Standish &

Jimpson train yesterday.

Powers & Jones, leasing on Black
Dog, have out 25 tons of fine ore and
will soon make another shipment. Several hundred tons of the same truck

e blocked out. 50-ton shipment from the Warden Kee Phenix lease will begin tomor-w. The lease has a large quantity second-class out and in sight, on which one of the custom mills will soon

be grinding. Teachenor & Richards, leasing on the Silver Hill (Red Wing group). Wednesday went into two feet of high grade steel galena. The ground was formery under lease to Beaver, Rourgard & Brink. A bad cave having occurred last spring a detour around it was made by present leasers, and presently they were rewarded by encountering the ore They will soon have enough out

for a shipment.
This morning cheering news comes from West Mountain Placer, Water is now under perfect control in all the workings, and everything will be ready for business by Monday, when taking out gravel by three shifts will begin a thre edifferent points. After setbacks which have delayed production for a year and a half, West Mountain Placer is on the verge of demonstrating wheth r Charley Watson's faith in it is well counded, and we have no doubt that re-

Hosa claim is now in 800 feet, having been extended 200 feet this summer, following 2 to 3 feet of mineral, including 4 streak of carbonate varying from 6 to 12 inches that assays 30 to 40 per cent lead, 16 ounces silver and \$6 to \$10 gold; balance assays \$12 gold. Only development work will be done this season.

L. E. Riter and family and J. M. Wheeler and family will leave tomorrow for a trip to the Yellowstone Park. They will have a private conveyance from the railroad and expect to be away several weeks.

Tintic Miner: Supt. Underwood is cleaning up some excellent values in spar and quartz on the 100-foot level at the Carissa. The ore averages about \$20 gold and 3 to 4 per cent in copper, id had been left by leasers as not contalning shipping values.

Mercur Miner: The experimental op-rations at the Overland at Sunshine did not prove entirely satisfactory and the new method has been abandoned for the present. An additional force was put on this week and the mill will put in shape to begin operations as rickly as possible.

of staff, Julius Smith, left Monday norning for Butte, Mont. The gentle-nen have many friends in Tintic dissive property of the company will re-

Bingham Bulletin: Yesterday the wheels of the Shawmut mill turned for the first time. Today the machinery is "limbering up." and Superintendent Earnshaw will put a hatful of ore through the crusher, to keep good his word given last month 

Inactivity in the Stock and Bond Market Not Equaled Since Opening of 1897.

Future of the Money Market Uncertain-Prospect is for Higher Rates, Discouraging Enterprises.

New York, Aug. 11.-The stock and bond markets have dropped back to a degree of inactivity not equalled since the opening of 1897. The paralysis of speculation is plainly due to uncertainty regarding the future of the money market. The placing of over half the last British loan in New York foreshadows the necessity that Great Britain and European governments will be under of resorting to American capital to help finance future loans, believed to be imminent, to meet the cost both of the Boer war and the millions committee.

Changes exceeding one-eighth were shown by only one or two stocks in the opening dealings. Sugar moved up a point to 126, and some improvement followed. lowed in other leading stocks, but the gains were not important. Lead pre-ferred added 74 point, break, and the common 1% to its recent decline. The bank statement was unheeded, closing was lifeless and steady.

nowned Face Bleach almost Without Cost

Madame A. Ruppert says:

Madame A. Ruppert says:

"I know there are many ladies who would like to try the merits of my Face Heach but on account of the price, which is \$1.00 per bottle, or three bottles for \$5.00, have had some bestlaney in spending that amount to convince themselves of its great value. Therefore, during this month, I will depart frong my usual custom and offer to all a trial bottle, sufficient to show that it is all that I claim for it, for 25 certs per bottle. Any reader of this can send me 35 cents in stamps or silver, and I will rend them a trial bottle of my word-renewined Face Bleach, securely packed in plain wrapper, scaled, all charges prepaid. An oppertunity to test so famous a remedy at so slight a cost is seldom offered, and I trust that the readers of this will take advantage of it at once, as the offer may not be repeated.

Madame A. Ruppert has now been looked.

that the readers of this will take advantage of it at once, as the ofter may not be repeated.

Madame A. Ruppert has now been before the public for over twenty years as the greatest Complexion Specialist.

She is the pioneer in her art, and stands pre-eminent at the head; she has had then-sands of imitators, but not a single competitor. Face Bleach is not a bew untried remedy, but has been used by the best people for years, and for dissolving not removing tan, sunburn, moth, freckles, sallowness, blackbeads, eczema, pimples, roughness or redress of the sain, and for brightening and beautifying the complexion, it has no equal.

It is Absolutely Harmless to the most Delicate Skin

The marvelous improvement after a few applications is most apparent, for the sain becomes as nature intended it should be. SMOOTH, CLEAR AND WHITE, free from every impurity and blemish. It cannot fail, for its action is such that it draws the impurities out of the skin, and dees not cover them up, and is invisible during use. This is the only thorough and permanent way.

For the present I will, as stated above.

For the present I will, as stated above, send a trial bottle of my Face Bleach to anyone who will remit me 2s cents in samps or silver. Madame A. Ruppert's book, "How to Be Beautiful," which contains many points of great interest to ladies, will be mailed free upon application.

cents for a sample. You wil be charmed with the work. VACATION EXCURSION SATURDAY, AUGUST 18TH.

Eureka, Aug. 10—A party consisting of thirteen of the pick miners of Tintic district, under the foremanship of James Gateley, left this week for Deck James Gateley, left this week for Deek Creek in Nevada. They have been em-ployed by the Midas Mining company at lone. The Midas was a producer of high-grade gold ore a few years ago, and a steady shipper, and we learn it is the intention to bring the mine to the front again. The ore has to be hauled across the desert to Oasis, and owing to that fact it must be of a good value in order to pay. The miners are paid higher wages than they received here, that being the only temptation for them
